

Spring Boot

The Workshop

Craig Walls
craig@habuma.com
Twitter: [@habuma](https://twitter.com/@habuma)
GitHub: github.com/habuma/nfjs-samples

What to expect...

Getting Started with Spring Boot

Creating Web and REST Applications

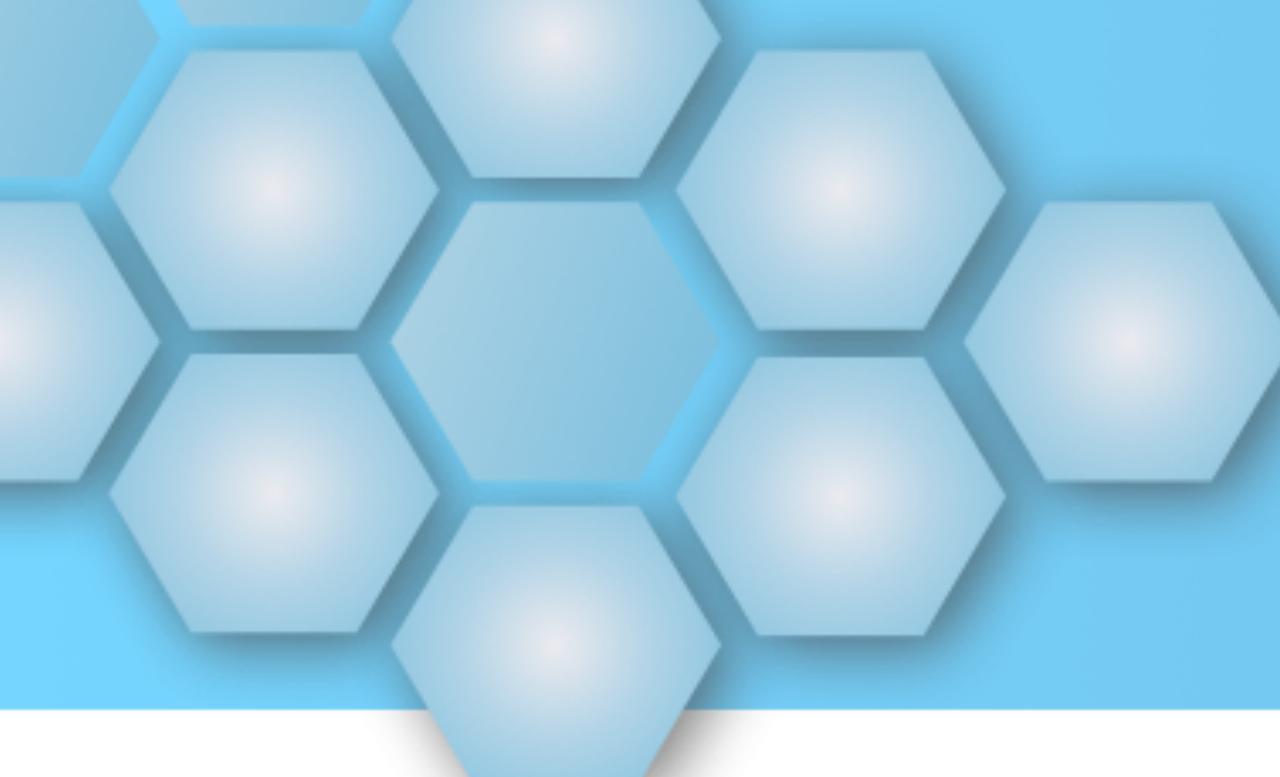

Persisting Data

A little bit of Reactive Spring

The Actuator

Deploying Boot apps

Whatever else we have time for...

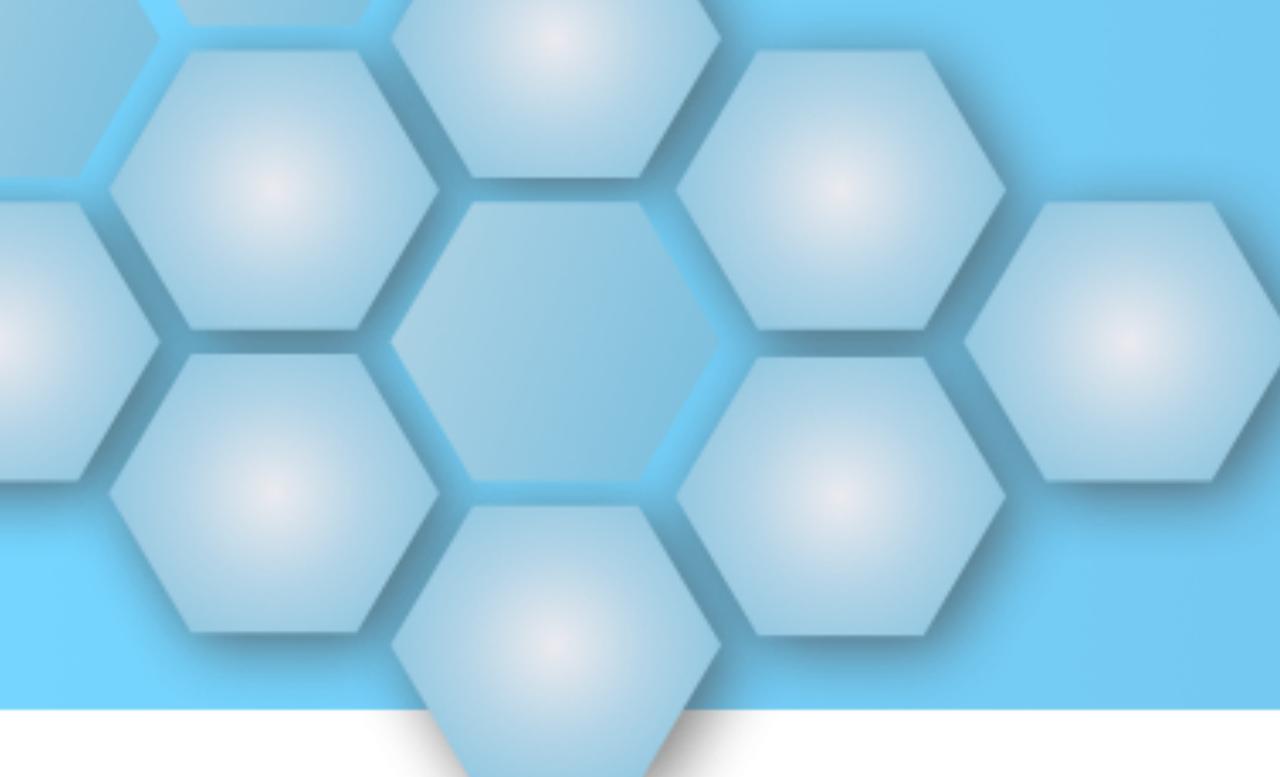

What to expect...

Some live coding

Misteaks will be maid

There will be dogs

What we'll (try to) do...

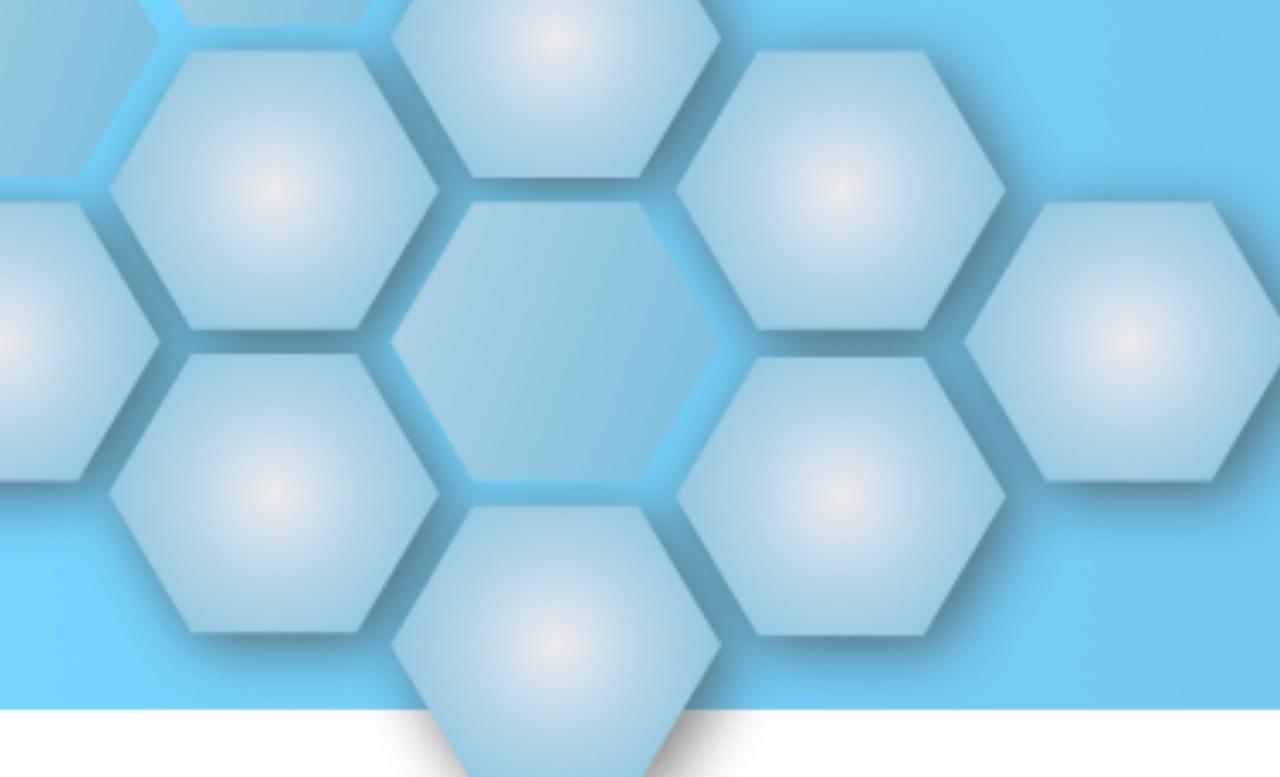

11:00 - 12:30

Introduction, Getting Started, Web and REST applications

1:00 - 2:30

Data Persistence, The Actuator, misc.

All of this is tentative and flexible

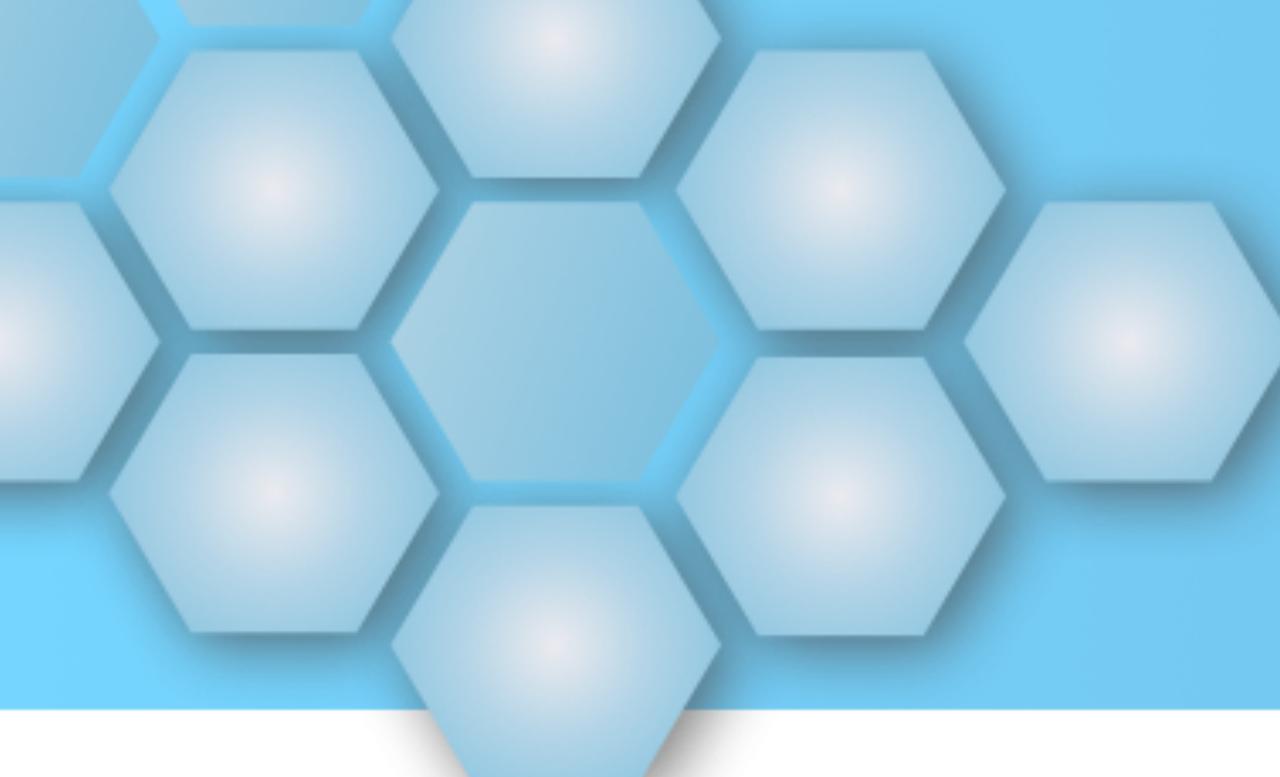

What you'll need

Java

A browser

Your favorite IDE

A reasonably good internet connection

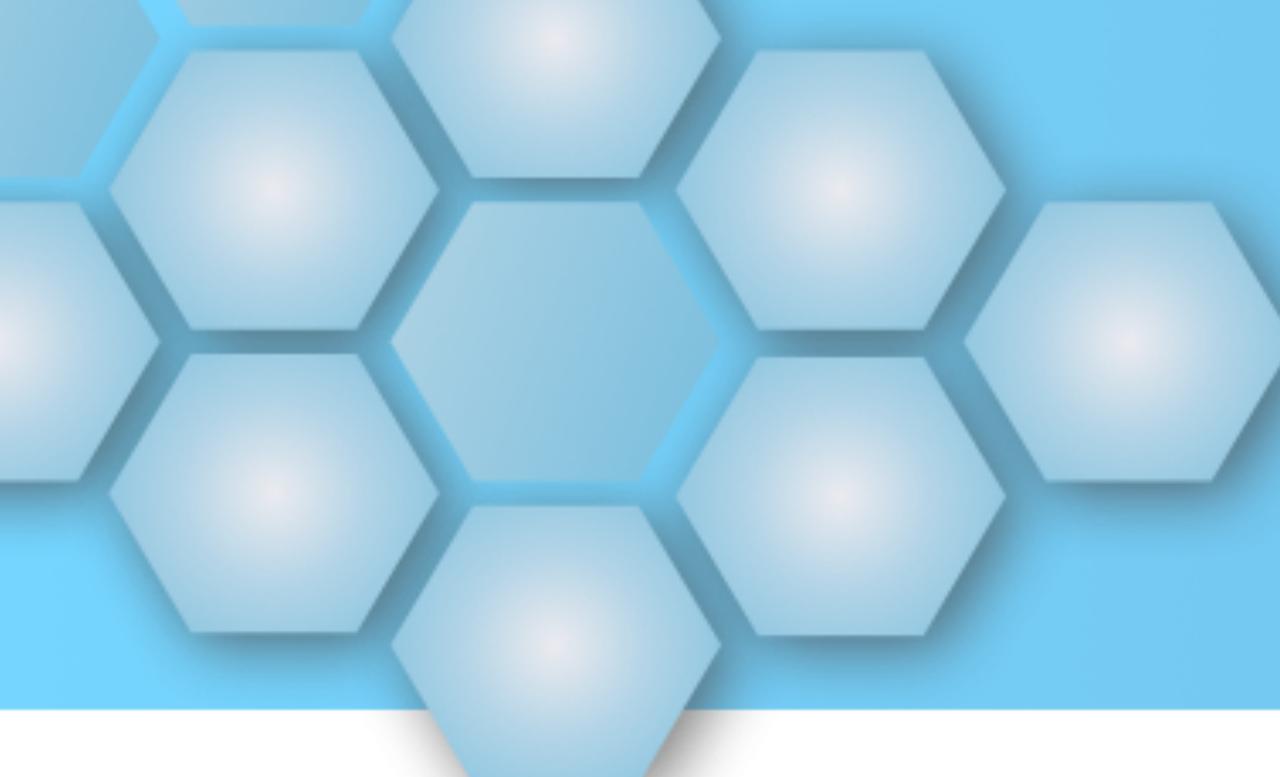

The code and slides?

All code and these slides will be at...

<https://github.com/habuma/nfjs-samples/tree/master/SpringBoot-Workshop-May-2021>

...after the workshop concludes

Spring Boot

Greatly simplifies Spring application development

Automatically configures components

Simplifies build dependency management

Offers runtime insight

Let's code!

Thank you!
